

My massive congratulations for your wonderful production of 42nd Street on Friday evening. The choreography was phenomenal, and I could only sit back and admire in awe given my own lack of ability in the dancing gene pool.

The production was not only about dancing and the vocals and acting was top notch also. I was also impressed to hear of the obstacles overcome to get the show to stage and the dedication of the whole cast.

Thank you for the opportunity to attend and the hospitality shown as well as the chance to speak albeit briefly to your cast members on stage at curtain down.
Congratulations to all.
